THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D.C. 20505

National Intelligence Council

20 DEC 1982

MEMORANDUM FOR: [REDACTED]
Staff Secretary
National Security Council

SUBJECT : Comments on Draft of NSSD [REDACTED]

1. The revised draft of the NSSD on comprehensive US Energy Security policy appears to us to be in excellent shape. We have no major problems with the draft. [REDACTED]

2. We are pleased that our suggestion of a discussion on the possibility and impact of natural gas and coal disruptions has been included. [REDACTED]

3. We defer to other government agencies' comments regarding Sections III and IV because these deal with US policy initiatives. One point we would like to emphasize, however, is that with regard to adding to IEA member stock levels it might be more appropriate if we encourage these additional stocks to be purchased and owned by governments. If all nations maintained government-owned stockpiles rather than the select few who presently have them, there is a greater likelihood that these stocks would be made available during oil supply emergencies.
